

# **ASSEMBLY MANUAL**

# MODEL GREAT DANE

# Dear Customer,

Thank you for purchasing a FERRANTI product.

Please consult this assembly manual carefully before proceeding with any operation on the product.

# **INTRODUCTION**

This assembly manual reflects the technique at the time of purchase and the specifications in force at the current date of edition; it contains the information necessary for correct installation, cleaning and disposal of the product at the end of its life.

**FERRANTI S.R.L.** reserves the right to make modifications, changes or improvements to the manual or to the product at any time and without notice.

Use only the original mounting components provided.

The manufacturer is not liable for damage to property, persons and animals caused by accidents due to failure to comply with the instructions in this assembly manual.

The images are purely indicative and do not constitute a commitment for the manufacturer and/or the Distributor. Any proposal by the Customer regarding improvements to be made to the product will be welcomed by FERRANTI S.R.L., which will evaluate their implementation.

# INTENDED USE (PERMITTED USE).

The product in question has been designed for the **housing** and **keeping of animals**. This type of dog house is the ideal shelter for large dogs, of **giant size** (kg 40-75, cm 55-85) of the following types: Alano, Bernese Mountain Dog, Rottweiler, Newfoundland, Male Dobermann, Irish Greyhound, Corsican Dog, Neapolitan Mastiff, Maremma Sheepdog, Bull mastiff. It is durable, insulated and easily washable.

## IMPROPER USE (NOT PERMITTED).

Any use other than the permitted one is to be considered "**improper use**"; the Manufacturer therefore declines all responsibility for any damage caused to property, animals and/or persons.

# **GENERAL DESCRIPTION**

The insulated dog house, model Great Dane, consists of:

- insulated panels, thick 3.5 cm, framed in sheet metal
- 56x166 cm man-height door, with sturdy lock holder bolt
- Sliding hatch with gate 30 x 50 h, rimmed with metal anti-bite plate
- Internal platform in marine plywood raised above the ground by 7 cm, removable and washable.

# **OVERALL DIMENSIONS**

|                  | 126 x 103             | 208 x 103             |
|------------------|-----------------------|-----------------------|
| External (WxDxH) | 126 x 103 x 180 cm    | 208 x 103 x 180 cm    |

W = Width / D = Depth / H = HeightOther dimensions on request.

# UNPACKING

- Place the structure near the final installation site and on a stable and horizontal area of the ground.
- Remove the packaging materials taking care not to damage the components.

**DANGER!** Keep out of the reach of children and animals.

Packaging materials (plastic bags, straps, etc.) can be a source of danger to health (e.g. suffocation).

Divide the packaging materials according to their type and dispose of them in accordance with the provisions in force regarding the disposal of waste.

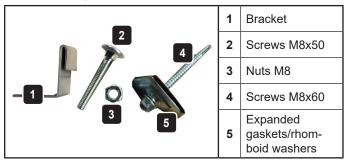

All the packaging materials are recyclable and must be disposed of in accordance with the local legislation.

#### Ferranti s.r.l. Unipersonale

#### STANDARD EQUIPMENT

#### **INSTALLATION**

The assembly operations must be performed by at least two persons.

For the assembly of the products, the use of Personal Protective Equipment is always recommended: work gloves to protect the hands from the danger of being cut.

#### RECOMMENDED TOOLS

Slotted Screwdriver - Cross Head Screwdriver - Wrench - Cutter. **Note**: Tighten the screws completely only at the end and after checking the square of the structure.

#### **RECOMMENDED TOOLS**

Slotted Screwdriver - Cross Head Screwdriver - Wrench - Cutter. **Note**: Tighten the screws completely only at the end and after checking the square of the structure.

# 1A - Assembly of the rear wall to the side panels

► Remove the brackets (1), screws (2) and nuts (3) from the kit

- supplied.
- 1) Place the **brackets (1)** in the inner part at the holes provided on the **wall (B)**.
  - Note: to facilitate insertion, it is advisable to force the panel frames with a screwdriver, at the points highlighted by the arrows.
- 2) Secure with the screws (2) and nuts (3).
- 3) Attach the front wall (C) to the side walls (B) in the same way.

# 1B - Roof assembly

- ▶ Remove the screws (4) and gaskets (5) from the kit supplied.
- 1) Place the **roof (D)** over the structure; in the inner part of the bed, attach the **brackets (1)** as indicated in point 1).
- Secure with screws (4) and gaskets (5).
  The 200x300 model has an extra bracket to be attached on the wall (A).

# 1C - Assembly of the platform

Open the door and pass the platform (E) inside the bed and place it in contact with the base.

## **CLEANING**

Clean the structure periodically (or in the presence of obvious dirt). Sanitise, disinfect and clean the inside of the kennel with suitable products that are not harmful to the health of the person and the animal.

# **SCRAPPING AND DISPOSAL**

The materials that compose the structure must be disposed of according to the type and procedures provided for by the legislation in force in the country of installation.

For further detailed information on the disposal of this product, contact the municipal office, the local waste disposal service or the store where it was purchased.
