

**ASSEMBLY MANUAL**

**RABBIT HUTCH FOR 2 BREED OUTDOOR**

*Dear Customer,*

*Thank you for purchasing a FERRANTI product.*

**OBLIGATION**

Please consult this assembly manual carefully before proceeding with any operation on the product.

**ATTENTION**

The manufacturer is not liable for damage to property, persons and animals caused by accidents due to failure to comply with the instructions in this assembly manual. ► Only use original mounting parts supplied with the delivery.

**INTENDED USE (PERMITTED USE).**

The product in question has been designed for the housing and keeping of animals.

**IMPROPER USE (NOT PERMITTED).**

Any use other than the permitted one is to be considered "improper use"; the Manufacturer therefore declines all responsibility for any damage caused to property, animals and/or persons.

**INTRODUCTION**

This assembly manual reflects the technique at the time of purchase and the specifications in force at the current date of edition; it contains the information necessary for correct installation, cleaning and disposal of the product at the end of its life.

FERRANTI S.R.L. reserves the right to make modifications, changes or improvements to the manual or to the product at any time and without notice. Use only the original mounting components provided.

**INSTALLATION**

2x

The assembly operations must be performed by at least two persons.

► For the assembly of the products, the use of Personal Protective Equipment is always recommended: work gloves to protect the hands from the danger of being cut.

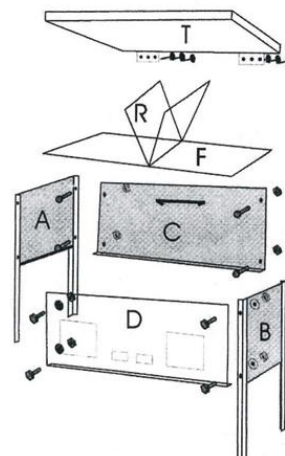

**RECOMMENDED TOOLS**

Slotted Screwdriver - Cross Head Screwdriver - Wrench - Cutter.

Note: Tighten the screws completely only at the end and after checking the square of the structure.

**INSTALLATION**

- Join the rear C to the sides A and B, with the 4 round head screws and nut
- Attach the mesh front D to the sides A and B, with the 4 hex head screws, washer and nut. Note: the washer and nut must be put after the mesh
- Recess the mesh bottom F from the top
- Open the partition R, and insert it into the tabs on the back C. Attach it to the mesh on the front D with the appropriate clips
- Place the roof T on the structure, and fix it to the back C with the 6 wood screws
- Insert the feeders and troughs; secure them by tightening the tabs on the mesh
- Insert the nests inside the cage (straw or other material for hatching must be inserted between the two nets)
- Remove the transparent protective plastic from the insulated panels (use a cutter)

**UNPACKING**

- Place the structure near the final installation site and on a stable and horizontal area of the ground.
- Remove the packaging materials taking care not to damage the components.

**RECYCLING**

All the packaging materials are recyclable and must be disposed of in accordance with the local legislation.

**SCRAPPING AND DISPOSAL**

**ATTENTION**

**DANGER!** Keep out of the reach of children and animals. Packaging materials (plastic bags, straps, etc.) can be a source of danger to health (e.g. suffocation).

**CLEANING**

Clean the structure periodically (or in the presence of obvious dirt). Sanitise, disinfect and clean the inside of the kennel with suitable products that are not harmful to the health of the person and the animal.

The materials that compose the structure must be disposed of according to the type and procedures provided for by the legislation in force in the country of installation. For further detailed information on the disposal of this product, contact the municipal office, the local waste disposal service or the store where it was purchased.
