

MODULAR PANELS FOR OUTDOOR DOG FENCING WITH MESH AND PARTIAL INSULATION

Mesh panels closed at the bottom with insulation board. Ideal for protecting from the wind and extreme weather, or between your dog runs to separate the view of dogs next to each other. Electro-welded panels, hot galvanized, 5 x 5 cm mesh 0.39 wire and 2.5 cm thick panel. They are fixed to each other with screws and nuts and to the ground with bolts.

SIZE AVAILABLE

100 x 170h

200 x 170h
